We have had a busy and fun month with the Explorers and the little Explorers. We have grown in confidence in the classrooms and are beginning to form firm friendships and use our imaginations in and outside of the classroom. We celebrated Diwali with a circle time and discussion of what the celebration is and means and enjoyed getting messy and mixing colours. We also enjoyed our group celebration for Thanks Giving. The children were very excited to share what they were going to be having for their special meals with their families, and we talked about the things we like and what make us happy! Our topic of 'All About Me' has been a lot of fun even for the Little Explorers. We have sung many songs about our bodies, made hand prints and talked about our family members.

### I CAN

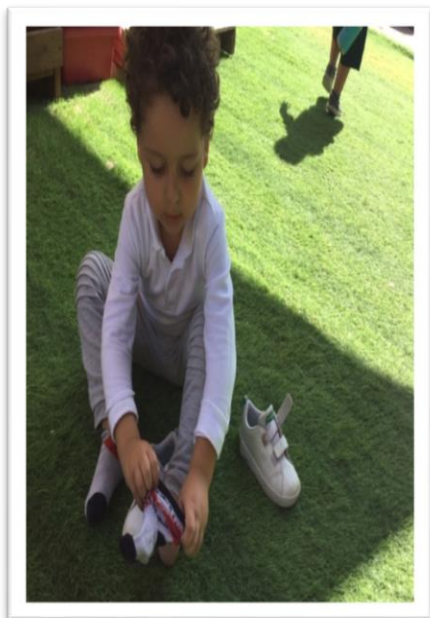

'I Can' is something both The Explorers and The Little Explorers have both been working on. I can take off my shoes and my socks, I can wash my own hands, I can carry my own things, I can sit down and eat my snack independently, and I can play with my friends positively. These are some of the things that we have been working on, and we have had so much fun helping our classmates and realizing we can do these things with a little help.

### What Can You do to Help?

Communication is such an important thing for children at this age, they try and listen to and copy new words and phrases, and their family are the most important people to them. So, when you are with your children make sure to ask many new questions about the world around them, what shapes can they see in the garden or when you

Let them help you with cooking or baking something in the kitchen. These small activities help with their learning including shapes, math skills and communications skill. If you can also encourage your children and be positive towards them trying something new or taking a bit longer to complete an activity such as taking off their shoes.

### A Big Thank you

A big thank you for all of your kind donations for our Thanks Giving food drive. The generosity from you all was so amazing and kind to the people who really need it the most at this current time. We will be continuing this giving theme into Christmas and are beginning 'A Toy Drive' for the less fortunate children within Bahrain to be able to enjoy some gifts over the holiday period. I also want to Thank You all again, for adhering to our drop off and pick up schedules and being so adaptable in these tricky, difficult times.
