- ✓ World Vet Day - 25th April
- ✓ Gergaon - 27th April

What's next?

Term three is always a fun term as the children are comfortable and confident with in the class so we are able to begin new and more exciting activities and topics. We will begin to discuss about recycling and taking care of our environment which will also involve taking care of our friends and belongings. We will also begin to discuss different type of transport and what they are used for, and animals and their habitats.

We will also spend more time in the art room and begin to do big paintings and drawings together.

Most importantly we are excited to learn through play and have lots of fun!

We have been so happy to have the children back in school and they have settled back in beautifully.

We have been continuing to work on our communication with our teachers and classmates, and the children have begun to ask a lot of new and exciting questions about the world around them, especially animals and things we find in the garden. The children really enjoy our daily circle times, and we take this opportunity to talk be able to have 'big group' discussions and we are beginning to turn take and enjoy listening to our friends' stories.

We have been enjoying getting very messy and exploring different textures and colours, introducing different shades of colours, such as lighter shades and pastel colours to go with our current theme or spring and Easter.

We have been playing some big games outdoors such as 'Duck, Duck, Goose' and 'Hide and Seek' and hiding treasure in the sand pit and beginning to make patterns with different garden items we find outside.

This last week is all about Easter fun and as the weather is warming up we are preparing for lots of water and splash fun. We are going to be enjoying an Easter egg hunt, painting and decorating our own Easter eggs and making Easter cards.

What can you do to help?

With the end of term approaching, it would be great if you can continue to let the children to be independent and tidying up their toys and belongings. We have a fun clean-up song and the children really enjoy to be given tasks and doing jobs, with positive reinforcements ☺ We have also been working on our shape and number recognition and the children enjoy and types of games which involves hiding and finding them.

Arabic

We recognized the parts of the face and body and the five senses. We like to count from 1 to 10 and sing the days of the week song.

We celebrated Mother's Day on March 21 and made a beautiful greeting card for our mothers. At the beginning of the third term, we will learn the names and sounds of animals. Ramadan is coming soon and we will learn what is Ramadan and make Ramadan's decoration.
