

# LITTLE EXPLORERS' CLASS NEWSLETTER

EtonHouse<sup>®</sup>  
International Pre-School

## Reminders/Upcoming Events

- ✓ February 28th - March 4th Literacy Week
- ✓ March 7th - March 11th Science Week
- ✓ March 8th International Women's Day
- ✓ March 14th British Mother's Day
- ✓ March 17th St Patrick's Day
- ✓ March 21st - 25th Easter - It's coming early this year as the school will be on holiday for Easter but we don't want the children to miss out on the fun Easter brings.
- ✓ March 21st - 25<sup>th</sup> – Parent Teacher Zoom Conference
- ✓ March 25th - April 11th Term Break - As always, a fun and exciting camp is currently being planned for the children to enjoy during the holiday.

It has been a very interesting but exciting month. We've received some wonderful pictures of the children busy with their sensory activities and their crafts! We've sent home lots of fine motor activities as well as working on our creativity while making our beautiful crafts. We have also been exploring mixing colours which is so much fun. We're all extremely proud with their growth despite our current situation. Our focus last month was animals and we saw some beautiful elephant masks that were made at home.

## Arabic

We learned to practice simple greetings in Arabic and to introduce ourselves. Next month we will learn to express our feelings, our face and body parts and body actions.

## What's Next?

Next month we will be focusing on Transportation which I am sure will be a huge hit with our Little Explorers. We will be designing our own planes, boats and even testing them out! We will be working on understanding simple concepts which will be incorporated into our theme of the month. We will also be learning more about the colours green and yellow.

## Literacy Week

We will be focusing on *The Gruffalo* by Julia Donaldson. I am sure the children will be thrilled with this choice as it is a huge hit in the classroom. We have prepared lots on crafts and sensory activities for the children to really understand each character in the story. Another very exciting week to look forward to is science week! We will be doing lots of fun experiments like erupting volcanoes and even learning about germs and washing hands. Who doesn't love a good experiment?

## What Can You Do To Help?

- First and foremost, I wanted to say a huge thank you again for all the work you have been doing at home with them. They all seem to be keeping very active and busy which is great to see.
- Please do continue to talk about the school, their teachers and friends so the children can have positive thoughts towards to the school for when they return.
- Talking to them in general and asking questions all the time will help to grow their vocabulary and form full sentences.
- Remember to let your child be as independent as possible. You can ask them to carry out small tasks for you and even help you a little in the kitchen.
- We now have a YouTube channel where videos will be uploaded regularly. If you are unable to join us on Zoom, please do consider watching these videos.
- Please do send me lots of videos and pictures of the children doing activities from their packs or even activities of their own choice.

*We're beyond excited to have our Little Explorers' back in the classroom!*
